Cultural exchanges took place through folk arts and crafts, folklore shows, experiences and forums. Mutual knowledge of each other's cultures helps to deepen relations, to open up and accept each other. Another topic was the state of democracy in the EU, in preparation for the 2024 EP elections</p> <p>07/08/2023 - BIOLOGICAL SUSTAINABILITY DAY - Environmental protection/sustainable development: Biodiversity/Environment versus Sustainable Development is a consultation to hear from our international speakers on the challenges facing Europe today and in the future. The consultation has developed alternative responses. We discussed our questions on a field trip, at an exhibition of our own photos, at a working dinner and in informal discussions. We explored the need for solidarity between different ages - the aims and everyday reality of the Green Solution.</p> <p>08/08/2023 - A DAY OF EUROPEAN VALUES AND DEMOCRACY was held on:</p> <p>The day was a day for citizens committed to European values and democracy. We declared our commitment to European values by signing a joint declaration and twinning documents. Democracy and oppression in the light of the past and the present, EU membership from the point of view of those who join, those who are "in" and those who want to join. The importance of solidarity in times of crisis.</p> <p><b>OPENING OF A CAMP REMINISCENT OF THE PAST</b></p> <p>The theme of the opening day of our twin town children's meeting was reminiscing about the past. Revisiting our recent history facilitates the fulfilment of our fundamental objectives - building a common future based on the exchange of experiences, strengthening volunteerism, economic and social cohesion.</p> <p><b>09/08/2023 - "CULTIVATING FROM EUROPE'S FUTURE" - Children's Camp Day 2</b></p>			

On this day, young people discussed their active involvement. A new tool for young people - active in the digital world - to express their views in an online conference on the future of Europe, running for two years from 2020. We exchanged views on the effectiveness of the two-year conference on the future of Europe and the experiences of its participants. Building the future in the face of the crisis! The children discussed democratic participation and the opportunities for volunteering at European level, which is so important for young people, and humanitarian aid, with the help of invited experts and local decision-makers.

10 - 12/08/2023 3 days **THEME: EUROPEAN LEGISLATION-EUROPEAN MULTIMUNICIPALITY AND FUTURE** - Kids Camp Days 3-5 - Cycling Trip - Environment/Sustainable Development - After a cycling trip on the European Green Line, we presented our enhanced knowledge on the last, final, evaluation day. The most far-reaching theme, "a greener, low-carbon Europe", was addressed. The key message from the participants for all Europeans is that with COVID and the threat of war gone, we need to think again about long-term hazards. The climate crisis, climate change and environmental degradation are existential threats for all of us. We can only tackle these challenges together. This is one of the reasons why active participation in EU policy-making has become particularly important.

#### **Dissemination activities:**

We have sought to achieve visibility of the project's results at European level through a wide range of activities, building on our own and our partner organisations' resources, contacts and opportunities. Our long-term cooperation (12 years), based on a quasi-strategic partnership, has enabled us to carry out a wide range of dissemination activities. Our municipalities have their own newspapers, advertising spaces, websites, social media platforms (Facebook profile), but we have also been able to involve a wide range of media contacts in the wide dissemination of the project results.

- Dissemination through social media platforms, website - project film about the event,
- Media presence
- Photo exhibition
